1. Construction of an airport located one kilometer north of the village of Sacevo and two and one-half kilometers south of Strumica. was begun in May 1949. The landing field was completed in November 1949 and was put into actual use at that time. The area of the field is about one square kilometer. About nine planes were observed at the field; the type of aircraft was not ascertained, but were thought to be military models.
2. Another airport was begun in August 1949 about six kilometers southwest of Valandovo and six kilometers northwest of Kazandol. The field was completed in September 1949.
3. Only military personnel were employed in the construction of the above airfields.
